JOHN DWIGHT & CO'S
SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East Water-st.
The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving coolers a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co's
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works, leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various machines, through the papers, of the Sanderson Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.
I will build a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent. for my trouble.
JAMES G. WILSON,
May 10, 1849. Philadelphia."

I deny that any person ever saw or heard of such a machine as mentioned until I invented the same. The machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass. or at such other place as may be convenient for such a trial.
JOSEPH F. WOODBURY,
August 20, 1851.ally East Boston, Mass.

VOLUME VIII. MILWAUKEE DAILY SENTINEL. NEW SERIES.

Milwaukee Daily Sentinel.

FRIDAY MORNING, APRIL 30, 1852.

Rufus King, Wm. H. Watson & John. S. Fillmore PROPRIETORS.

UNDER THE NAME AND FIRM OF

RUFUS KING & CO.

A Daniel come to Judgment.

It is a matter of astonishment to see how much profound wisdom and fatherly advice can be compressed into the columns of a single sheet, like the *Free Democrat*. Our neighbor, being among, and belonging to the regular "democracy," when the fancy strikes him, has succeeded in arranging matters after a fashion; and has done all that he could to fix up the Free Soil party—and now he offers his valuable advice and services to the Whigs. The very bad behavior of the Whigs in the last Assembly afflicts him very much. The first great trouble is clearly indicated in what the *Free Democrat* says about the possibility of a cordial union between the Whigs and Free Soilers in the Assembly. Says that paper:

And had the Whigs manifested a friendly disposition, and elected Judge Spooner, instead of A. T. Gray, Clerk, they might have secured this result. But—as if bereft of all sense—they chose a Clerk from among their sworn, life-long enemies, who, of course, used the power they gave him, to strengthen the party from which they had nothing to hope, but everything to fear. This was committing suicide without any provocation—resigning themselves to death, just when their prospects of life were brightest. This act lost them all.

All very bad, that was. "Out of the depths of deep despair," we yet venture to say that the Whigs, as a body, felt very much as the result indicated. Very many, of course, would have been glad to secure the assistance of the Free Soilers by any proper means. Some of these had their dispositions changed by the tone of the Magnus Apollo of that party, who, with others, held a stiff upper lip, and said—"Gentlemen! we have no bargain to offer—no trade to make; if you choose to elect our candidate, well and good; do as you please." Then there were good Whigs from the Western part of the State, who would not listen for a moment to any such arrangement. So the Whig members determined to stand by their ticket. This course, we were well satisfied, would in the end have given them the whole of the offices. After balloting for some time for Speaker, a couple of Whigs grew nervous, and without any preconcerted arrangement, and on their own hook, induced two or three Democrats to vote for Mr. Shafter, they promising to vote for Gray, the opposing candidate for Clerk. So the thing was done. What might have happened if the Whigs had "elected Judge Spooner," is exceedingly problematical.—Certain it is that the Free Soilers generally voted with the Whigs on questions on which they would have voted with them, if the Judge had *been* elected, and on others, they voted as they pleased and thought best.

The kind reflections of the *Free Democrat* as to what could have been the "true policy" for the Whigs, are, we are sure, properly appreciated. But then, people will differ in opinion about these things. No two faces are alike—no two blades of grass are alike. Still, there is one thing about which there are not two opinions.—The sentiment of the world is fixed, that wisdom will die with the *Free Democrat*.

Remarkable Kindness.

It is wonderful to see how greatly the Loco Foco papers are exercised on account of the probable nomination of Gen. Scott by the Whig National Convention. When it was first talked of, they remarked, in lugubrious terms, the injustice that would be done to the gallant Harry of the West—the very man whom they had pursued, through a long life of usefulness, with slander and abuse unparalelled. Later on, when it was known that the sun of the great Kentuckian was hastening towards its setting, they mustered decency enough to spare him their tardy praises, and took up the defence of Daniel Webster and President Fillmore. To read their eulogies of the statesmanship, administrative abilities, and important services of these two eminent Whigs, one would suppose that, if nominated, either of them would receive their hearty support. We have been led to expect, from the interest which those gentlemen take in the Whig nomination, that some of the leading Loco Foco States would send delegates to Baltimore to plead for Mr. Webster or Fillmore; and such, doubtless, would be the case, if it were not certain that the Whig Convention will give the wishes of the "democracy" all the weight which they deserve.

But it is of no use, gentlemen! Old "Lundy's Lane," with his honors thick about him—his services of 40 years accumulation remembered by the people—is to be the Whig candidate, beyond a contingency. You may as well settle up the quarrel between Douglas, Marcy, Butler, Buchanan, Cass, Houston, &c., &c.—between the Old Fogies and Young America—and prepare for a beating. We don't ask anything for the advice.

THE PRESS AND THE VETO.—The *Commercial* enumerates ten or twelve papers in the State which "have expressed themselves boldly against the Veto," and then says:

Of respectable papers which have declared in its favor, the Sentinel is supported by the Madison Express, alone. Fortunately for the credit of the profession these two papers do not constitute the whole, or even a sample, of the press of the State.

Without stopping to bandy compliments with our supercilious neighbour, we may be permitted to expose its mis-statements. The *Sentinel* is sustained in its approval of the Veto, by the *Wisconsin*, *Free Democrat* and *Sea Bote*, of this city, the Western *Star* (Walworth County) Racine *Advocate*, Kenosha *Telegraph*, Watertown *Chronicle*, Janesville *Gazette*, Beloit *Journal*, Oshkosh *Democrat*, Grant County *Herald* and Mineral Point *Tribune*. All of these papers, we believe, have directly or indirectly endorsed the Veto. Which of them does the *Commercial* propose to rule out as not "respectable"? It is worthy of special remark in this connection that while none but ultra partizan papers (with the single exception of the Green Bay *Spectator*) have *assailed* the Veto, Whig, Democratic and Free Soil papers alike sustain it. This single fact is *conclusive* as to the sentiment of the Wisconsin Press.

THE MILWAUKEE PRESS.—The Chicago *Tribune*, which takes an affectionate interest in everything that relates to Wisconsin, is just now under great concern of mind about the Milwaukee papers.—Hearing that our friends STARK & Co., talk of starting a daily penny paper here, the *Tribune* rebukes their rashness and marvels at this attempt to establish another daily "where those already published are poorly sustained." It then proceeds to say:

We do not *know* how well the Milwaukee papers have been supported, but we are quite confident, taking their advertising columns as a criterion for judgment, that not one of them is more than paying expenses.

The *Tribune's* "confidence" considerably outruns its knowledge. Without undertaking to speak for our City contemporaries, we are happy to say that the *Sentinel* is not only "paying expenses," but something over. Indeed we should be rather unwilling to "swop" business even with the Chicago *Tribune*. The reason why the press of this city is better sustained than that of Chicago, is sufficiently clear to us, tho' apparently not so obvious to our neighbors. It would be scarcely courteous, under these circumstances, to point it out.

ATT'Y GENERAL CHATFIELD.—The Rochester *Democrat* says that Mr. Chatfield, who, with his Loco Foco colleagues, is doing his best to mullify the Erie Canal Enlargement Law, is yet well enough satisfied of its validity to offer to shave a canal draft of $1500 on the Auditor, at the modest sum of $200! Truly enough, as the *Democrat* remarks—"If such operations are frequent, State officers may find it a profitable business to connive at the nullification of a public law."

SAULT ST. MARIE CANAL.—The Detroit *Tribune* learns that there is almost a certainty of the passage of the bill through Congress providing for the construction of this important work.

A CHANGE OF TUNE.

The *Free Democrat*, which on Tuesday last took occasion to rebuke its contemporaries of the City Press for "constantly growling and snarling at each other" and meekly wondered why they could'nt "imitate its peaceful disposition and treat each other like gentlemen," has turned a short corner, and now scolds like a very drab.—The *Sentinel* is so fortunate as to be the object of its vindictive and vehement abuse. Its angry diatribe opens thus:—

The *Sentinel* disclaims being "the Governor's, or any body else's "organ." It claims to speak *for itself alone.*"

The *Sentinel* forgets, or suppresses the real facts of the case. It is the "organ" of the Jenny Lind Club And it seeks, by the aid of a few prominent bolting democrats connected with this Club, directly or indirectly, to control the elections and the patronage of the city, for its own benefit.

This is the fourth or fifth repetition in the same quarter of this pitiful falsehood. It is a lie out of whole cloth. There is neither the substance, nor the semblance of truth about it. There can be no excuse (as indeed the *Free Democrat* attempts none) for these wilful, repeated and unscrupulous fabrications; and the pretence of provocation which the *Free Democrat* sets up, to-wit: that the *Sentinel* has "resorted to unfair and dishonorable means" to obtain the City Printing, is as false and unfounded as the rest.

Ice in Lake Michigan.

In addition to the reports of ice in and about the Straits, which we copy from the Chicago *Tribune*, we have seen a letter from Bay de Noquet, dated April 21st, from which we make the following extracts:

"The ice is not out of the Bay, nor River, nor do I think it will go out for 8 or 10 days yet, from all appearance. We shall have provisions to last for 15 or 18 days. The whole country is out, and I have supplied as long as it would do."

RAILROAD BONDS AS BANKING SECURITIES.—Just think of it—a mile of railroad, and a "fancy" railroad at that, perhaps, made the basis of $8000 of banking capital!—*Watertown Chronicle.*

Think of it, friend of the *Chronicle*, often and carefully. See what you call a "fancy" railroad. The bill provides that the road must be certified by the Governor, Attorney General and Comptroller, or any two of them, from actual inspection, to have been "constructed in a substantial manner, with a solid road bed, and with a rail of T or H, or other approved pattern and weight, of in no case less than fifty pounds to the yard, similar to other roads of the first class, and has been fully equipped and in actual operation, and has earned for the year next preceding a net revenue, greater than the interest on the bonds or obligations secured thereon by such mortgage or deed of trust."

Then it must be 40 miles long, if part of a road, or 20 at least if that is its whole length—the mortgage must be the first lien on the "road, equipments, depots, machinery, income and franchise"—and the bonds can only be taken as security at 80 per cent. on their par value, and only to the amount of half of the circulation of any one bank.

Certainly there is no great "fancy" about such a Rail Road, and no great hazard in such security.

BUTTER AND CHEESE AGAIN.—The *Sentinel* again makes an inroad upon the *Wisconsin's* market report, and quotes the price of butter and cheese in favor of FARWELL'S veto. This is hardly fair.—We said that the editor of the Wisconsin had not expressed an opinion on the subject.—*Commercial.*

We can't undertake to separate the Editor of the *Wisconsin* from his "butter and cheese." In fact, it is fair to presume that the opinions expressed in the "butter and cheese" department of his paper are his honest and unbiassed opinions. Besides "silence gives consent." We have twice quoted and called attention to this "butter and cheese" opinion in favor of the Governor's Veto, and if the editor of the *Wisconsin* did not intend to adopt it as his own, he would long since have "repudiated."

COOL, DECIDEDLY!—The Sheboygan Lake *Journal* of the 23th instant indulges in the following fancy sketch:

We ask attention to "An Act to provide for levying a State Tax," in another column. This is the first fruit of the "State Loan"—an increase of Taxes. It was for this reason, mainly, that we opposed the making of a loan by the State, knowing, as we well do, that the burdens of this character are already enormous. And this may also be considered the first fruit of *Whig* Legislation. A great State debt and enormous charges are the inevitable results of *Whig* ascendency.

Considering that the Whigs had not a majority in *either* branch of the Legislature, while the Democrats held undisputed control of the Senate; and considering, further, that this "great State Debt" was incurred by the last Democratic Administration and that the "increase of taxes" was necessary to pay the debt, the coolness of the Sheboygan *Journal's* paragraph is decidedly refreshing. It must have a good stock of ice on hand for summer use.

"SHAMEFUL MISREPRESENTATION."—The *Commercial* insists that the Janesville *Standard* "has said nothing about hanging the Governor in effigy." Let the *Standard* speak for itself:

There is no doubt but that he (Gov. F.) will get enough of it, (abuse); in fact, there is very little now on that score left undone, to make him notorious, *except burning him in effigy.* We would not advise this, neither would we choose to have any hand in it, yet we cannot help our imagination's pointing out some convenient localities therefor, in the regions of the once happy homes of those who have been stripped of their all by chancery foreclosures and at some particular stations on the Fox and Wisconsin Rivers.

So much for that "misrepresentation." Call your next, Mr. *Commercial.*

LUMBER SEIZURES.—Hon. B. C. Eastman writes from Washington to Mr. Cate, member of Assembly from Portage County, that the supervision and control of the subject of lumber seizures and trespasses have within a few days been assumed by the Department of the Interior and the same taken away from the Solicitor of the Treasury.

He adds:

In several long consultations which I have had with the Secretary of the Interior upon this subject, I have become convinced that it is his earnest desire to do for the interests of our citizens what is best, not inconsistent with his duty to the United States.

Mr. Eastman says that he has strong hopes that a milder policy will be adopted hereafter.

☞ The whigs of the South have become so intolerant as to insist that Scott must not only favor the Compromise measures; but must declare, over his signature, that he regards all those laws as a finality. We like the pluck of Gen. Scott in refusing to make any such declaration—though he does not disguise that he did, and still does favor all the compromise measures.—*Wisconsin.*

We hope the *Wisconsin's* liking for his "pluck" will last, when its own Presidential candidate is required to sign and seal the Finality test. According to Col. POLK, the Democratic nominee for the Presidency is to pledge himself, *in writing*, to resist all and every attempt to alter, amend or modify the Compromise measures and the Fugitive Slave Law in particular, unless that attempt comes from the *South itself*, and is designed to render that law more stringent!

EMIGRATION.—Mr. Rondall, writing to the *New Orleans Picayune* from Paris, says: "The emigration of Germans to the States is now greater than it has ever been—is immense. According to a statement in Galignani, three vessels left Antwerp on Saturday last with 844 passengers—Seven other vessels have been taken up to carry out 1,900 additional emigrants, and will sail shortly. In addition to these ten American ships are looked for at the same port shortly, some of them of large burthen, and they will all go out alive with Germans. The emigration from Havre, as well as from the Dutch ports and Hamburg and Bremen, is also greater than ever.

☞ The *Wisconsin*, which has a happy faculty of discovering its own faculties in its neighbour's practices, twits the *Sentinel* with a disposition to "gouge the City Treasury." Having been "choked off" itself, the *Wisconsin* is fully determined that nobody else shall get a bite.—Public spirited Journal!

Correspondence of the Sentinel

ST. CHARLES, Ill., April 25.

Messrs. Editors:

In your paper of the 9th I notice under the head of "Editorial Correspondence," a statement that a letter had been read in the Assembly of your state, from Dr. Brainard of Chicago, giving the opinion that I was not a suitable person to be entrusted with the charge of insane persons, and on that account, chiefly, the bill relating to insane persons—then pending—was indefinitely postponed. Will you do me the justice to insert a brief reply?

I was aware that Dr. B., had, for upwards of 3 years, been seeking to do me private injury, without the least provocation—but did not suppose his malice would extend so far as to attempt the frustration of a design, calculated to be of great benefit to your State, and by so doing, snatch the bread from the mouths of my children, at a crisis when I had suffered the loss of several thousand dollars, by a calamitous fire.

If an attack had been anticipated from that quarter, I would have fortified myself by an abundance of testimonials which would have nullified any slanderous statement that that person had to make. But Mr. Ogden's letter to Gov. Farwell would have been sufficient, if it had been before the Committee who proposed such a summary disposal of the bill. In addition to that testimonial, the following copy of a telegraphic despatch sent to Gov. Dewey, may be adduced:

"The undersigned, from personal acquaintance with Dr. Mead of this city, would recommend him as a suitable person, well qualified, and highly competent to take charge of insane persons, having made the subject of insanity, for years, his study.

WM. B. OGDEN.
ERASTUS S. WILLIAMS.
ISAAC N. ARNOLD,
and others."

CHICAGO, March 14, 1851.

I will further say that I am ready, at any time, to compare qualifications, moral or professional, with Dr. B, before any competent medical tribunal in the Union.

Respectfully Yours,
EDWARD MEAD, M. D.

Ohio for Scott.

The Toledo *Blade*, heitherto in favor of Mr. Fillmore's nomination, talks as follows since the recent development of Whig feeling in Ohio:

There is no doubt that our State, in its Whig tendencies, is largely in favor of Gen. Scott, as the candidate for the Presidency. Indeed we have not seen the proceedings of a single Convention for the appointement of delegates to the National Convention, which has expressed a preference for any other nominee. Although, not our first choice, we shall support Gen. Scott as cordially as any other Whig, and shall go for an enthusiastic campaign if he is nominated. No man in the nation, has a right to exhect more at the hands of the people than Gen. Scott; for the simple reason that no man in the nation has rendered the country more illustrious and important services. Our country boasts not a name, on its list of living heroes or statesmen, which fills a wider space in history than his—or which will justly claim at the hands of posterity a more lively and heartfelt gratitude.

BISHOP DOANE'S CASE.—The three Bishops, McIlvaine, Meade and Burgess, who have been for some time considering charges against Bishop Doane, have concluded to present him to the General Convention. The Banner of the Cross announces it as follows:

"Presentment of Bishop Doane, Drawn up, Signed, Printed and Published!—We think the above intelligence will be read with astonishment. Would such a proceeding be tolerated in the lowest court of justice in the land, against the meanest criminal? that an indictment accompanied with a full synopsis of the evidence and specifications of the facts charged, unrelieved by one explanatory or extenuating word, should be printed and circulated a month or so, before the the day of trial, to create unfavorable judgment, and to excite a prejudice of guilt in the minds of those who are bound to hold a man as innocent until he is proved to be guilty? We think the judgment of the Church will pronounce this proceeding to be a clear violation of the commonest principles of justice."

MORMON MORALS.—A Welch miner named Powell, who with his wife and family arrived at St. Louis last autumn, on his way to the Salt Lake, has written a letter to his friends at home, in the course of which he gives a sad account of his travels and troubles. He describes Mormonism as a system of robbery and plunder, and adds:—

"It is nothing but a mere humbug. I have found it so to my heart's sorrow. It would have been better for us not to have been born, than to have come here to be Mormons. They will take all from you at home, and starve you when you come here, if they have the chance, and take your wives from you."

A PAIR OF 'EM.—At the late Women's Convention at Rochester, N. Y., Mrs. Stanton presided, and Mrs. Bloomer was one of the speakers. The *Democrat* says:

Mrs. B. appeared in the costume which bears her own name. Her dress and trousers were of "silver gray" silk, the prevailing color relieved by a lighter figure. She wore a sort of turban. In the street, she wears a white beaver hat, in the [illegible] and her appearance is very neat as well as unique. We may as well say here that the President, Mrs. Stanton, was also clad in the new costume. Her dress was of black satin. Her hair, which is slightly silvered, was cut short, and "shingled," which, together with the close fitting dress, gave her a rather masculine appearance.

GREAT FOOT RACE.—On the 22d of March, a foot race was run at the Copenhagen fields, London, between John Levitt and James Frost, for the champion's belt and fifty pounds; the distance being ten miles. Over 20,000 spectators were present in the enclosure, and thousands were perched on trees, mounds, &c., outside, endeavoring to get a glimpse of the race. After one of the most exciting struggles ever witnessed, Levitt came in ahead about 29 yards, performing the distance in 51 minutes and 58 seconds. This beats, by several minutes, the best time ever made by Jackson, Gildersleeve, Titlow, Greenhaugh, Steeprock, Coffee, or any of the runners, either in this country, or in England.

Exactly So.

We would briefly say to the Sentinel, first the Hollanders cannot be "used" by any party or any man. As a people they are well educated, and have sufficient self-respect and firmness of character not to allow themselves to be "used" by anybody.—*Sheboygan Journal.*

Nor abused either. So we supposed; and we see the more certain of it since reading the rebuke administered by the *Newsboate* to the *Journal.*

☞ There is more of the true teaching of christianity in these four little lines, than is contained in many an elaborate sermon, preached in a pulpit:

If thy neighbor should sin, old Christoval said,
Never, never, unmercifu! be!
For remember it is by the mercy of God,
Thou art not as wicked as he!

SODUS CANAL.—It is stated by a correspondent of the N. Y. *Times*, that the Canal from Great Sodus Bay, the best and only good natural harbor on Lake Ontario, to the Erie Canal, a distance of 12 miles, will be completed in the course of another year. Oswego will have to look sharp for the western trade when the new avenue of communication is opened.

ELOPED.—E. D. Topping, Postmaster at Watertown, Jefferson Co. writes to the Watertown *Chronicle* that Dr. N. E. Walker has recently removed from the former place, taking with him another man's wife, with one child. Pass him around.

☞ The *Wisconsin* "observed" yesterday that the *Sentinel* has been "puffing the Sultana House, Chicago." The *Wisconsin's* observations are usually worthless, and this one is no exception to the general rule. The *Sentinel* has done nothing of the sort.

MARQUETTE CO., SEAT.—The total number of votes given at the late election in Marquette Co. on this question was 1913, of which 1215 were against removal to Montello. Dartford, and Princeton, and Montello again, are to be voted for in succession, unless either point is settled upon before November.

☞ Gen. Solomon Van Rensselaer died at Albany, New York, on the 23d, aged 78 years, of Apoplexy.

Proceedings of the Common Council.

Reported for the Daily Sentinel.

Thursday, April 29, 2½ P. M.

Ald. West, President of the Board in the chair.

Present.—Ald. Prentiss, Foote, Newstadtl, Hickey, Brown, West, Johnson, Fishback, Donsman, Rosebeck—10.

Journal of last meeting read.

Ald. Prentiss offered a resolution requiring claims for street work to be presented first to the comptroller, and entered by that officer. A brief discussion followed as to the necessity of letting out street work of all kinds, without exception, by contract. Ald. Prentiss, Peck, and Martin explained that they did not understand that to be the construction of the charter, but that the Aldermen of the several wards had the control of the smaller jobs. The contract system would involve great delays in very necessary work.

Ald. Huebschmann thought the resolution unnecessary, and that those who drafted the charter intended to have the streets cleaned by contract.

The resolution was laid on the table, on motion of Mr. Prentiss.

Petition of Jas. Johnson and numerous others, asking the passage of an ordinance cleaning the sidewalks of auction and other sales. Referred to the Ordinance Committee.

Petition of B. Cross, for filling of Jackson St.

Remonstrance of S. M. Booth against the action of the clerk in giving out certain printing. Ald. West requested Mr. Booth to read the remonstrance, the chirography being equivocal. Referred to Committee on Printing.

Account of D. H. Griffith for rent of lot on which Hose house is built was presented and referred.

Sundry other accounts were presented and referred, among them those of E. K. White, H. W. Tenney, T. Lorenzen, H. Bevering, and E Palmer, for various services.

Remonstrance of A. Parrish against the removal of a certain wooden building into the fire limits. The Marshal was directed to attend to the matter.

Ald. Martin presented an account for carting a dead horse out of the 5th Ward, and moved to refer to committee on Judiciary.

Ald. Prentiss objected. Ald. Martin said the horse belonged to the 3rd Ward. Ald. Brown said he died of old age in the 5th. The account was referred to the local committee of the Fifth Ward.

Reports of Committees.

Ald. Brown, from Finance Committee, in favor of account of J. M. Smith $10. Gardiner & Co, $11,50, C. M. Selby $2,75, M. Neibart $5,00, J. L. Bichard $3,50, Davis & Moore $1,00, Schoefler & Co. $6,00; all allowed.

Also on petition of B. Kilbourn, concerning funding a part of city debt, in favor of funding as requested, except as relates to the special dredging orders.

Ald Huebschman, from same committee, reported in favor of funding the whole debt in sums over $500 at over 4 years time, not over $3000 to mature in any one year, and sums under $500 redeemable at a less time, all at 10 per ct. interest.

The report was adopted as follows:

Ayes—Ald. Prentiss, Foote, Huebschman, Phelps, Newstadtl, Hickey, Reed, Brown, West, Johnston, Fischback, Martin, Roesbeck.

Noes, none.

Oratorio of the Seasons.

The performance of the Oratorio of the Seasons comes off *to-night*, at the Musical Societys Hall, in Dickerman's Block. The entertainment of itself alone should fill the Hall, but when to this attraction is added Mr. BALATKA'S claim for a *substantial* Benefit, there ought not to be a seat, or standing place, unoccupied. We earnestly advise all who love the "concord of sweet sounds" to go and listen to the Oratorio this evening. It is a magnificent composition, full of pleasing melodies that will captivate the general as well as the critical judgment, and will be performed in a style worthy the high reputation of our Musical Society. The Orchestra and Chorus embrace upwards of one hundred performers, several of them excellent artists, and all well-drilled by their indefatigable conductor, Mr. BALATKA. As the Oratorio will commence at half past seven precisely, those who wish to hear it all themselves and not to interfere with others' hearing, will do well to be *punctual.*

STATE MACHINE—NEW INVENTION.—We took occasion, yesterday, to call in at the machine shop of our ingenious fellow-citizen, Wm. HAWKINS, near the foot of Mason Street, to witness the operation of his new stave machine. Mr. H. has been working at different times, for a number of years, to contrive a machine which would perform the different operations necessary in forming a perfect stave, and save time and labor. He has succeeded to his entire satisfaction, and has secured letters patent in this country. Unfortunately for him, the agent of English machinists had access to the documents in the Patent Office at Washington, and parties in England had filed a caveat, which debarred him from the just fruits of his labor abroad.

A simple machine, also of Mr. Hawkins' invention, takes the rough places off the stave as it comes to market, and it is passed into the more complicated, but easily guaged and managed little affair, which turns out the article, dressed on the sides and edges—hollowed into shape, and requiring very little handling to fit it for the barrel.—This it does at the rate of 5000 to 8000 staves per working day, the last rate being for flour barrel staves. The machine was running with a low head of steam when we were present, but was turning out staves at the rate of 500 per hour.—The whole affair costs, we understand, about $150 without the engine; and must make a revolution in the trade.

We understand that Messrs. WELLS & HILL, of this city, have purchased of Mr. HAWKINS the whole right to the use and sale of this invention.

CHANGE OF TIME.—We learn from Mr. GOODRICH, that on and after the 1st of May, the boats of Ward's line will leave here at 7 A. M., instead of 8.

They will not run to Sheboygan for some time to come, the trip around being too much for the boats now on the line. Another boat will soon be added. Until that time, the *Telegraph* will make daily trips between this city and Sheboygan.

RAPID TRIP.—The steamboat from Chicago arrived here last evening at 6 o'clock, and punctually at half-past 7, the mail was delivered at the Post Office; accomplishing the distance from the wharf to the office in the unprecedented time of one hour and thirty minutes!

HORTICULTURAL SOCIETY.—Members will recollect the meeting this afternoon at 2½ o'clock, at the rooms of the Board of Trade.

LAKE WINNEBAGO OPEN.—The Oshkosh *Democrat* of the 23d instant announces that the ice has all left Lake Winnebago, and that the steamboats are now making their regular trips.

A SCENE IN CONGRESS.—There was an interesting colloquy in the lower House on the 21st. Mr. Howard, of Texas, was very desirous of ascertaining what was said and done at the Whig Caucus the evening before. After making the inquiry, and pausing for a moment, he continued. We copy from the report in the N. Y. *Times*:

Mr. Howard—It must be tolerably apparent that the caucus, of which we have heard so much, is not very communicative on the principles on which it intends to act. With regard to the Presidential election, (laughter,) I repeat, I understand the Compromise was tabled out of order—only eighteen gentlemen being willing to stand up to it, as a finality for the maintenance of the public peace.

Mr. Stanly—"Will you allow me to ask you a question?" [Laughter.]

Mr. Howard—"Yes, sir!"

A Voice—Provided you, Howard, can ask another?

Mr. Howard—I know the gentleman will not be so discourteous as not to answer.

Mr. Stanly—That's an entirely different affair. [Laughter.] If the gentleman will answer this question, it will enable me to get the satisfaction which I have heretofore failed to obtain from gentlemen of either party, namely: Why did not Gen. Cass vote for the fugitive slave bill on the day it was passed in the Senate?

Mr. Howard—You had better ask Gen. Cass himself.

Mr. Stanly—That might be impertinent, and might offend the old gentleman. [Laughter.]

Mr. Howard—I never conversed with him upon the subject. [There was here a pause—Mr. Howard having turned aside to listen to a private suggestion.]

Mr. Stanly called over the hall, and said, the gentleman can't answer, there is so much noise and confusion.

Mr. Howard was thus called upon to reply, and said that Mr. Cass might have had private reasons for not voting.

Mr. Stanly—Exactly!

[By this time the members were in a tolerably excited state. Many clustered around Mr. Howard to hear what he had to say. Everybody inside and without the bar had their curiosity aroused to the highest point.

Mr. Howard, elevating his voice, said that Gen. Cass, in all his speeches before and after the passage of that bill, expressed himself in favor of the fugitive slave bill.

Mr. Stanly—Yes, expressed it in his speeches, but acted the other way. Why didn't he vote?

Mr. Howard made no reply, being fairly cowered. Further on in the report, we find Mr. Brooks, of the New York *Express*, very much troubled that the Southern Whigs, or a portion of them, refuse to continue the slavery agitation.—To this, gallant Ned Stanly, of North Carolina, replied, saying:

The gentleman from New York (Mr. Brooks,) remarked that the Southern Whigs faltered. The gentleman chooses to take the Southern Whigs and the slavery institution under his direction here. We are to be accused of faltering, because we will not follow his lead, and the gentleman seems to think that he is to be sacrificed and taken to the altar, because we will not obey his behests.

COMMERCIAL.

THE MARKETS.

OFFICE OF THE DAILY SENTINEL, MILWAUKEE, April 30, 1852.

Nothing doing in market yesterday. Prices remain without change, and transactions are confined to the local trade.

The repairs of the Dam are in progress, and the Mills will probably get to work again, in the course of a week. Their suspension and the short supplies from the country keep up the price of choice Family Flour. It is quick of sale at $4 25.

Chicago, April 28.—Since yesterday (for which our Weekly Review, found below, was written) there has been some stir in the produce market, and we are better enabled to determine with reference to corn, our principal staple at present. A sale of a cargo of 2400 bu from canal, afloat, was made at 33c, and there is inquiry for more for shipment at the same figures. The feeling is much better, among dealers, than it was a day or two ago, and small parcels from the Railroad, command, for wheat, 94c @ 95c per 60 lbs. There is also some inquiry for Spring wheat, and small lots were disposed of at the depot, for 80@86c for spring, and winter, for milling, at 75c.

New Orleans, April 23.—Cotton—Fair demand.—Sales 5000 bales. Sugar and Molasses—Demand steady, stock light.

Flour—2500 bbls Ohio sold at $3,70. Wheat—250 sacks sold at 70c. Whiskey 100 bbls sold at 16c. Bacon—11 casks shoulders sold at 7½c. Lard—sales 215 and 213 kegs at 10½, and 125 inferior at 8½c.

Candles—700 boxes star sold at 18c. Coffee—200 bags Rio sold at 9½c.

Cincinnati, April 23.—The river has risen three feet since last evening, and still swelling. At Maysville it is rising this morning at one inch per hour, and is within one foot of the last rise. At Portsmouth, it is rising 1¼ inch per hour and is 7 inches above last rise.

Market unchanged. Sales 200 bbls flour at $3, 15. Whiskey, 14½@15c. Sales 1200 bbls. bacon sundries in lots, at 8c, packed; 94 bbls plain hams at 10c, packed. Sugar, firm 5@6c. Molasses, 31c.

Oswego, April 23, 1852.—There were sales yesterday of 9200 bus. Toledo wheat, 5400 do Ohio on private terms; 9,[illegible] do oats at 32½ cts. afloat

A north-west wind has brought in a large number of vessels, and the receipts to day, almost wholly Canadian, are to fair extent, consisting principally of 13,457 bbls of flour, 19,510 bush wheat, 900 barley, 531 do seed, 60 bbls beef, 410 bbls pork, 10 do ashes, 208 m shingles and 778 m ft of lumber.

WOOL.—The New York *Shipping List*, of the 17th inst. says wool is dull, and prices of fleece and pulled are 4c @ 7c lb lower than a month ago. There were sale, of about 30,000 lbs fine fleece, in lots, at 37@40c, cash. A heavy auction sale was announced for the 28th inst.

ILLINOIS RIVER BANK.—We learn from the Peru *Democrat* that the Illinois River Bank of TAYLOR & COPPINS, intended completing the arrangements they have made for organizing under the general banking law, as soon as plates for their issues can be procured. As soon as this is done, the deposits will be made and issues upon Virginia stocks commenced.

RETURNS.—The brig Minnesota, which left last Friday for Buffalo, after beating for three days against the wind, and making about 150 miles down the lake, last her boat in the storm, on Sunday night, and having one of her men disabled by an accident, and the mate sick, concluded to return to this port, where she arrived last night. After procuring a boat and hands, she again left.

The Minnesota brings word from the down-ward bound fleet, that they had safely weathered the storm, and were gradually beating downwards; the islands against the winds.—*Chicago Tribune.*

PROPELLER ROSSETER.—Men are at work on the Propeller Rossetter. She lies fair, she is perfectly sound. She will most likely be found at the dock of Richmond & Co. this evening, and on her way to Green Bay to morrow evening, as advertised.—*Chicago Tribune.*

VOLUME VIII. MILWAUKEE DAILY SENTINEL. NEW SERIES.

DAILY SENTINEL.

By Last Night's Mail.

Congressional.

Washington, April 23.

SENATE.—Business was commenced at 12½ o'clock.

Mr. Hunter moved to suspend the private calendar and take up the deficiency bill.

Messrs. Clemens, Hamlin, Downs, and Walker opposed the further postponement of private bills, three weeks having elapsed since private bills were considered.

Mr. Hunter's motion was rejected.

Mr. Gwin moved to postpone the calendar to take up the resolution providing that every third Friday be devoted to private bills, to which there was no objection, and after some debate the motion was referred.

Mr. Hale renewed the motion, and the resolution was taken up, amended so as to commence to-day, and then adopted.

HOUSE.—Mr. Brooks made a personal explanation in reply to Senator Mangum's speech about him yesterday.

The House then proceeded to the consideration of private bills,

New York, April 22.

The half million of Georgia 6 per cent bonds, it is now understood, have been taken at 105.

Dwight Johnston, an extensive produce dealer, in this city, suspended payment yesterday.

New York, April 19.

The morning papers of the New York Association, have what purports to be a dispatch for foreign markets per City of Glasgow, and which is calculated to do much mischief.

The dispatches state that the Liverpool markets on the 10th had suddenly become animated, eleven thousand bales of cotton being sold at firm prices.

Breadstuffs active. Wheat advanced 18d.

The following extracts from the letters received in this city will show the utter falsity of the above; Liverpool 10th.

There is nothing doing in business to-day. Most people having taken advantage of the fine weather to enjoy the easter holidays, and have left for a trip in the country.

Another of the 9th says the markets will be closed to-morrow in consequence of the easter holidays.

The Japanese expedition will not sail as early as contemplated in consequence of difficulty in obtaining steamer.

The death of the Hon. John Sargent is contradicted.

The first thunder storm of the season visited us at 6 A. M. The weather is still rainy.

Washington, April 25.

Mr. Dean's speech in the House on Friday, is regarded as manifesto of the Democracy of N. Y. against Lewis Cass. An anonymous Handbill against him showing why he could not be elected, and bringing certain charges against him, has been circulated here for a few days past. Its authorship has been traced to Judge Lynch, of Pittsburgh, an agent of Mr. Buchanan.

Washington, April 26.

Senate—Mr. Seward presented a pesented petition, fifty-two feet in length, from the citizens of Philadelphia, in favor of granting lands to actual settlers.

Baltimore, April 25.

It has been confidently asserted that the Chesapeak and Ohio Canal, by the recent flood, will require six months to repair damages.

The engineer contradicts this statement. It will cost $500,000 for repairs.

Further of the Storm—Whole Village Swept off—Loss of Life.

Baltimore, April 22.

The Virginia papers, received this evening, are filled with the details of the damage by the recent flood. The towns of Washington, Fairmount, Riverville and Newport, were inundated, and many houses were swept off. More than forty houses were seen to float past Fairmount.—Every house, except one, and a part of two others, in the village of Worthington, was swept away.—In Fredericksburg and vicinity, the damage done was very great. Falmouth Bridge was entirely swept away.

Ice in the Straits.

We learn that the schooner Liberty, which left this city for Grand Traverse Bay a week ago, returned as far as Racine without loading, yesterday, and reports the ice to be solid from Beaver Island to the Main shore; and also, that the lower part of Lake Michigan is covered with thick ice. We fear it is too true, though we hope for better.

We also learn that the lower part of Lake Huron is covered with ice fields which have been driven down by the prevailing north winds of the last ten days, and which present a complete bar to all entrance to that lake for the present. Nothing short of a severe rain storm from the south will help us much now.—*Chicago Tribune* (49th)

Mr. Hannah, of the firm of Hannah, Lay & Co., has very kindly permitted us to copy the following extract from a letter written him by his partner, Mr. Lay, who is now at Grand Traverse Bay, superintending the lumber operations of the firm. The letter is dated at Omeena City, April 21st. Mr. Lay says:

"I arrived at this place last night. Had a remarkably pleasant passage. No rough weather. Saw plenty of ice at Little Traverse. The Straits are solid yet. We could see the ice up about the Beavers and on the East shore above Little Traverse. They seem to think here that vessels will not go through the Straits before the 10th of May. Joe left Grand Traverse Bay, Wednesday the 16th."—*Id.*

☞ The banks of the canal reservoir, five miles from New Lisbon, gave way on Monday of last week, the large body of water sweeping over the country and doing very extensive damage to property.—*Toledo Blade.*

THE BOATS.—The Atlantic came up from Buffalo yesterday morning on the north shore.

The Wisconsin, Capt. Titus, also came from Buffalo, bound for Milwaukee and Chicago with 250 German emigrants. From information about the ice in the river St. Clair and lake Huron, the captain thought it doubtful about getting thro', and transferred his passengers to the railroad.

The Globe left Buffalo loaded with Chicago freight, ahead of the Wisconsin, but was detained 2 days in the ice, and the Wisconsin passed her stuck on the bar at Erie. The boats report considerable ice off Erie and Dunkirk.

The str. Albany and prop. Saginaw arrived Saturday with cargoes of Michigan, Chicago and Western freight.—*Detroit Advertiser*, Tuesday.

☞ About the coolest thing we have seen lately, is the charge against the State of three hundred dollars by J. C. Fairchild, Esq., late State Treasurer for his son's sleeping in the bedroom attached to the Treasury Department.—The Legislature very properly refused to allow the charge.—*Sheboygan Lake Journal.*

FIRE ANNIHILATOR.—The *N. Y. Times* says:

While they were trying some experiments with the Fire Annihilator at Newark, a few days ago, the flames got the start of the machines, and, no water being handy, the whole building was consumed. Four or five Annihilators were thrown in at the windows, but it was no go—flame was too much for steam.

NEW YORK, April 22

Advices from Hayti report that trouble was likely to occur again between the Haytians and Dominicans.

Soloque is desirous of acquiring more territory, and of extending the compass of his power over the Island.

Washington, April 19.

The French Spoliation Bill will, without doubt, pass both Houses.

Mr. Webster, who has been quite ill, is now nearly recovered.

Philadelphia, April 21.

Judge Coulter, who was elected to the Supreme Bench of Pennsylvania last October, died this morning at Westmoreland, while on a visit to his family.

New York, April 19.

During the past 24 hours, a severe storm of rain and wind has visited this city. It is feared considerable damage has been done to the shipping on the coast.

The Newark train ran in to the rear of the Philadelphia train this morning. The engine of the former was smashed, and the rear car of the latter considerably damaged. No lives were lost.

THE LADY ELGIN.—The Buffalo *Commercial* says of this fine boat, which is to run in the upper Lake line during the present season:

During the winter and spring she has had an upper cabin put on, which to our fancy surpasses anything yet put afloat. The Lady Elgin is a beautiful model, strongly built and will be some as to speed. She is admirably calculated for a passenger boat, and under the command of Capt. G. Appleby, cannot fail to be popular with the travelling public.

THE SWISS RIFLE.—The following description of this weapon we find in the London Morning Chronicle:

"The weapon weighs only 9½ pounds. The bore is very small. The ball weighs only 155 grains, hardly one third as much as that of the Minnie rifle; tapering to a point, and nearly an inch in length. As for the range of the Swiss rifle, we need only mention, that at a distance of 1,000 paces, 190 balls (fired from a rest) struck a target of eight feet six inches square, and penetrated three planks of deal, placed one inch asunder, besides passing half through a fourth."

OUR MINISTER TO AUSTRIA.—The Scottish Missionaries who were lately expelled from Pesth, Hungary, by the Austrian government, make honorable mention of the sympathy and kindness extended to them by Mr. M'Curdy, in their hour of need. A correspondent of the *Independent*, gives an account of a large meeting held at the City Hall, Glasgow, at which Messrs. Wingate and Smith made interesting addresses concerning the mission. The writer says: "The meeting learned with astonishment from one of the speakers, of the temporizing and compliant conduct of Lord Westmoreland, the British Minister, who attended a Sunday ball given by Prince Schwarzenberg, in honor of the downfall of Palmerston, and "left the missionaries in their hour of need to obtain from the American Ambassador—*honor be to his name and nation!*—that sympathy and support which was withheld by the British Ambassador!"

The Missionaries in their statement in the Church record, say:

"We cannot forbear from mentioning the extreme kindness which we received from the American Minister, who not only accorded to us his fullest sympathy, but offered every assistance which he could render within the limits of his functions, and generously put his purse at our disposal—a kindness which we did not require to avail ourselves of."

PRESCOTT, WIS.—We learn from the St. Anthony Express that a company of gentlemen from St. Louis have purchased the framework of the mill begun at Point Douglass, and transferred it to Prescott, Wis., on the east side of the St. Croix. Report says that eighty saws are to be put up immediately, and two steam engines of sufficient power to propel them. Twenty-five houses and stores are going up the present season, some of which are already commenced. David Baker is building a large three story hotel near the landing, which will be finished by the first of June. Prescott is about 30 miles below St. Paul, pleasantly situated for a town-site, and backed by the finest farming country in Wisconsin.—*Madison Statesman.*

POISONED.—A little boy and girl, children of JOHN DOCHERTY, were poisoned by eating, in the garden of a neighbor, a quantity of the root of the belladonna, or deadly nightshade, on Saturday last. The boy, who was in his third year, ate a large quantity, and went into spasms at once. He died an hour or two afterward. The girl, some two years older, ate more sparingly, and was saved by the aid of medicine. The father of these children is now in California.

Parents cannot be too particular in warning their children against partaking of strange roots to be found at this season of the year.—*Watertown Chronicle.*

CHARACTER OF THE EMIGRANTS TO CALIFORNIA.—The emigrants from this state are generally of the most temperate, industrious and enterprising class of our citizens. At the recent quarterly session of the Grand Division of the Sons of Temperance, it was ascertained that hundreds of the emigrants were members of the order—the Dodgeville Division alone had contributed forty members, and many other of the western divisions in a like proportion. As a general thing the emigrants of this state in the Union have succeeded better in California than those from Wisconsin, or preserved better habits and morals during their residence there.

A SINGULAR REQUEST.—A Frenchman not intimately acquainted with the laws and institution of our country, came to the City Marshal's office, and stating that he had got into a slight difficulty with some one, asked that he might have a written official permit to go over to the Presidio, and settle the matter with small swords. The Marshal stated that he could not exactly comply with his demand, and explained the penalties affixed by law to such acts. The Frenchman raised his eye-glass, took a long stare at the official, and then left the room in utter disgust to think that republican governments should so restrict their subject.—*San Francisco Herald.*

FISHING.—We learn that C. R. TYLER, who has the lease of the fishery at Depere, is driving an extensive business. He has taken as many as 45 barrels of fish in one night, and will probably put up 1500 barrels this spring. These fish sell in the Cleveland market for from five to eight dollars per barrel. The fishermen on the Bay shore are making preparations for "long haul," and the prospects are that more fish will be taken and prepared to the eastern markets, this season, than has been any previous year.—*Green Bay Advocate.*

THE FISHERIES.—At Depere, they are putting up from 35 to 50 barrels of fish per night, and expect to have 1500 bbls. ready for shipment by the 10th of May. Albright & Crosby have twenty a thousand barrels in store, and will probably have five or six hundred more by the first of June.—The fishermen "down the Bay," have had rather poor luck through the winter, but their Spring prospects are exceedingly flattering.—*Green Bay Spectator.*

☞ It is of no use talking about the weather and Mails—the first is regular and the last is very irregular and sometimes entirely defective. The roads are awful—they resemble, some, the patience of the Great Co. Herald, in times gone by—they won't settle. But the roads will settle sometime, but those delinquents, we are afraid, will not.—*Grand Co. Herald.*

THE WORLD'S FAIR
PREMIUM SAFES.
DEPOT,
Green Block, Water St.,
(Between Maiden Lane and Wall Street.)
NEW YORK.

THE SUBSCRIBER PLACED HIS FIRE AND BURGLAR-Proof Iron Safe in competition with the whole world at the great Exhibition in London, for which an immediate premium was awarded.

The American Safe, held last fall at Castle Garden, also awarded to him a gold medal for the best Fire-Proof Safe, and he has never failed to secure the highest premium when his Safe has been put in competition with others for that purpose. Certificates have been received from the following well-known mercantile houses, who have had their books, papers and money preserved in these superior Safes within the last thirty days, (and can, with many others, be seen at my store,) viz: Messrs. Sedwell & Montross, and Mr. J. L. Watkins, in the Fulton street fire; Messrs. Keller & Robinson, and Messrs. John Lockwood & Co., in the great fire on corner of Liberty and Nassau Streets, and Messrs. Prudat & Bowman, in Jersey City.

I am the proprietor of HALL'S PATENT LOCK, which obtained a medal (in the name of Adams & Co., Boston,) at the World's Fair, held in London in 1851. Also, Hall's Locks for the price, ever invented, being proof against powder, and the key is no larger than a cent, and can be made exchangable.

I invite all purchasers to a close and careful investigation before purchasing, and decide for themselves, who makes the best Fire, Burglar and Damp-Proof Safes combined.

G. GRÆSSLE'S PRESSED, FIRE-PROOF TILING.

CERTIFICATES OF RECOMMENDATION.

BY the present, I attest my entire satisfaction with the roof of my house, covered with the pressed, fire-proof Tile, invented by Mr. Græssle; having found them perfectly secure during snow-storms, rains, wind and intense cold. I hereby take occasion to recommend said roof covering to every house-builder, inviting them to satisfy themselves by peculiar inspection of the excellent quality of the same. ENNO MEYER,
Druggist, 371 W. Water-st, 2nd ward.
Milwaukee, Feb. 3, 1852.

The above I found true in every respect, as to the roof of my house, covered with the same tile, invented by Mr. Græssle. AUGUST KRUG,
Brewer, Chestnut-st., 2nd ward.

The undersigned, having carefully examined the pressed roofing Tiles, invented by Mr. Græssle, have found them perfectly answering the purpose intended. Their practical and ingenious construction recommend this kind of Tile, not only as a fire-proof and perfectly water-proof covering, but above all for its durability. The ridges and channels not only exclude the entering of snow or rain-water, but by their form and peculiar joining of one into the other, they give to the single Tile as well as to the whole covering an absolutely movable position and an intimate connection. Besides this, Mr. Græssle's method of burning the Tiles, deprives them of the injurious tendency to absorb water, making them in this way durable; and joining to the above another virtue, viz. that of dispensing with repairs. The undersigned therefore consider ourselves fully justified in recommending to the building community the above roofing Tile as an excellent and valuable material.

OTTO SCHWARTZ, } Architects
VICTOR SCHULTE, } & Builders.
Milwaukee, Feb. 5, 1852.

To G. Græssle:—I have examined the Roofing Tile made by you, and have no hesitation in recommending them to general use, and particularly as a fire-proof roof.

We have used CRANE'S PATENT SOAP in our families for the past eight months, and pronounce it FULLY EQUAL to its recommendations. We do not discover that it injures clothing in the least. It is the cheapest soap in use. We should not willingly do without it.

GRIST MILLS.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the FOUNDRY business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch on terms that will defy competition.

In our time our Stoves to the community, we do so with the full assurance that we can supply better articles than can be had elsewhere at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST
DOUBLE OVEN COOKING STOVE,
(Which received the First Premium at the State Fair, lately held at Janesville,)

Possessing great advantages over any other stove, for plain times and the completion of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent close—one that has been well tested, and gives general satisfaction.

The PREMIUM is different in its construction from any other in use, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—it centre front doors and below the grate being opened or closed with the same doors, and so arranged that when open they are completely out of sight. It is equally adapted to either wood or bituminous coal.

The RADIATOR is the best coal stove ever got up as a radiator of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superseding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern stoves.

Those who are in want of an article in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. Our references given, where our stoves can be seen in operation. Stoves delivered and set up if any part of the city, free of charge. All orders promptly attended to.
